Electrical Discounts

Electrical Appliances

When you're looking for a new electrical or gas appliance, remember ShopRite. You're not limited on what you can ask for, whether it be a new pair of headphones, a coffee machine or a refrigerator etc.

How to get the best deal

Firstly, decide on your new electrical or gas appliance and obtain the model number and best price from an Australian supplier. Then contact us with this information and let us fight for the best deal.

Finally, call us at the allocated time given. From there, upon acceptance of our best price, you simply receive a call from the supplier, pay them and collect your goods. (Delivery and extended warranty are also negotiable).
